

### TECHNICAL DRAWING

### ONE OF THE SMALLEST ON THE MARKET

Guaranteed to be discreet! The no.44 profile is reduced to a minimum with its size of less than half an inch, while accepting a good range of LED strips up to 8mm wide.

### FEATURES

- Ultra-compact aluminum profile —12.2mm wide by 12.2mm high (0.5 x 0.5in).
- Custom length by sections of 2 to 240 inches (6m).
- Made of ALCOA 6063-T5 aluminum alloy increasing heat dissipation.
- Its use increases the lifetime of your LED engine.
- Compatible with multiple installation accessories.
- Designed to meet North American woodworking standards.
- Conforms to UL STD. 2108 for closet usage.

| PROFILE                                                                                                           | LENSES                                                                                                  | MOUNTING HARDWARE                                                                                      | LENGTH                                             |
